At THISIS! DMG we are hungry for opportunities to improve the digital world.

As a service provider our clients benefit from our unique ability to think beyond technology and design to make their business more efficient. Our client relationships are based on our shared values of respect, thinking beyond, and responsiveness. While we see ourselves as experts in the digital field, we are always learning, always challenging our thinking, and always looking for the next big step to improve businesses. That's why we believe that the perfect candidate will challenge the status quo on a daily base while bringing exciting projects to life.

We are hungry for more join us if your appetite is big enough.

As a **CMS Engineer - PHP / Typo3** will be responsible for designing and implementing new features and functionality, establishing and guiding the website's architecture, ensuring high-performance and availability, and managing all technical aspects of the CMS.

Tasks

Your most important task is to help your team deliver good software projects and platforms that the whole team is proud of. That can include the following tasks

- Develop custom content elements, extensions and themes in Typo3

- Managing all technical aspects of Typo3 based websites

- Develop and optimize websites, conduct website performance tests as well ensuring high quality code and execution

Working with project managers to discuss the desired website functionality and provide solutions

Work with various Typo3 extension and customize as per the needs

Suggest best practices, innovative ideas, and methods for attracting new clients and existing clients

Requirements

Excellent knowledge of PHP and developing websites with Typo3

5+ years experience coding custom extensions and content-elements for Typo3

Extensive knowledge of HTML, CSS and JavaScript

Strong Front-End skills and fully capable of Back-End Development in Typo3

Excellent Logical reasoning

Benefits

Career & Continuing Education

Benefiting from success together: For compensation, we follow the principle of good pay for good performance. Our maxim is: Profit from success together. That's why performance-based compensation systems play a crucial role for us - even outside the upper management levels.

We support your further development: For on-the-job learning, we offer the DMG Academy, a mentoring program and advanced internal training.

Step by step to the top: Regular evaluation and employee appraisals

Individualized

Individualized working hours and working time models: You are free to choose when you work, around the 2 hour core hours. We offer part-time and full-time positions as well as flexible changes in between.

Individualized work locations: We support you in freely choosing your work

location - you decide from where you work with us, worldwide.

Individualized benefits: Extended health insurance, also worldwide - support for private pension plans.

Individualized support for home/remote office

What we do?

The next big thingWe are doing today what customers will see as innovative tomorrow. Topics like NFTs, Sound Interfaces, LoRa, Metaverse and Metahuman are currently topics we are working on.

Our Groundwork:We implement the full range of digital projects for our clients - from CMS, PWAs and mobile apps to 3D animations and deployment structures.

Our style: We work on projects worldwide with teams of over 15 nationalities, our working language is English, we work on topics that move our clients forward and our people are good at finding the most efficient solution.

No matter who you are, where you're from, what you believe or what you're passionate about, we bring together smart people who truly love what they do to create great projects and platforms. That's what makes us DMG.

If you love development for typo3, you should join us!
