

Cyber Security - OT Security Consultant

[Apply Now](#)

Company: KPMG-Thailand

Location: Thailand

Category: other-general

Job Description

Public and private organizations in various sectors worldwide now openly acknowledge that cyber-attacks are one of the most prevalent and high impact risks they face. Dealing with cyber threats is a complex challenge. KPMG professionals recognize that cyber security is about risk management - not risk elimination.

We are looking for experienced consultants to join our cyber team to focus on the below.

Roles and responsibilities

Develop frameworks, policies, processes, procedures, architecture, and controls

Review OT Security and architecture and identify potential risks

Assess governance processes and controls

Ability to write reports on OT Security related issues in risk and business terms.

Review OT Security and architecture and identify potential risks

Self starter and team player

Lead complex and multi team OT security related projects

Qualifications

OT / ICS security, audit, OT/IT security, operational risk management

Requires working knowledge of and ability to apply standards, principles, theories, concepts, and techniques of OT security security.

Experience with emerging technologies and methodologies in the OT space will be a benefit

Excellent report writing skills in both English and Thai

Ability to translate OT and OT Security needs and requirements to senior management and business stakeholders

Ability to report OT security related issues in a risk based manner to board level management

Excellent report writing skills in both English and Thai

Certification preferred (but not a must have):

Global Industrial Cyber Security Professional (GICSP)

Certified Operational Technology Cybersecurity Professional (TÜV)

ISO27001

CISSP
