

Go Developer

[Apply Now](#)

Company: ZILO

Location: Bangkok

Category: other-general

We are seeking an experienced GO Developer to join our team in building and maintaining a set of microservices to support financial services use cases. As a GO Developer, you will be responsible for designing, implementing and maintaining highly scalable and reliable microservices, while also ensuring that they are integrated with Kafka for seamless communication between services.

Key Responsibilities:

- Design and implement highly scalable and reliable services in GO language

- Collaborate with team members to develop efficient and elegant solutions to complex problems

- Work with Kafka for messaging and ensure that services are integrated with it

- Ensure that all microservices are highly available and fault-tolerant

- Write high-quality and well-documented code

- Ensure that code is tested, reviewed and deployed in a timely and efficient manner

- Continuously improve the performance and scalability of the microservices

Requirements

- Bachelor's or Master's degree in Computer Science or a related field

At least 5 years of professional experience in software development, with at least 3 years in GO language

Experience with Kafka as a messaging system

Strong understanding of microservice architecture, GraphQL and RESTful API design and development

Experience with containerisation technologies such as Docker and Kubernetes

Experience with databases such as PostgreSQL, MySQL, and MongoDB

Experience with version control systems such as Github or Gitlab

Strong problem-solving skills and ability to work independently

Excellent communication and interpersonal skills

Benefits

23 annual holidays (start and fix at 23 days)

15 public holidays

Provident fund up to 12%

Health Insurance (including immediate family)

Shift and on-call allowan
