

Manufacturing Leadership Development Program (EMBARK)

[Apply Now](#)

Company: Cardinal Health

Location: Thailand

Category: other-general

Cardinal Health's Early Career Development Program is an entry-level professional development and capability building program. Through a robust career readiness journey, we prepare participants with the skills to navigate the organization and build connections while providing challenging assignments that aid in growing and owning your career path. The program is geared towards recent college graduates interested in the healthcare industry that are searching for a rewarding career. With our Early Career Development Program, you can do what matters, stay balanced and find your place. Cardinal Health is where you belong.

Location: Rayong, Thailand

Start Date: July 1, 2024

Why choose the Manufacturing Early Career Development Program?

Participants have the opportunity to develop strong manufacturing and engineering knowledge as well as build relationships through exposure to challenging assignments and diverse experiences. Participants will gain valuable experience in a highly regulated medical manufacturing setting that manufactures and distributes healthcare products to a broad range of healthcare customers. The program is designed to give participants knowledge of both technical engineering and leadership capabilities.

Participants will complete a 12-month assignment within a team at a manufacturing site.

Roles will be determined based on business need and may include:

Manufacturing operations

Process innovation and process management

Medical product and process validation processes

Facility management

Lean Six Sigma methodologies; Root cause problem solving

Quality and regulatory

Leading professional and manufacturing teams

Mechanical Engineering

Accountabilities in this role:

Analytical skills and attention to detail

Ability to interact effectively at all levels and across diverse cultures

Quality and results orientation with a proactive approach

Ability to prioritize requests effectively and understand importance and meet deadlines

Ability to work independently with moderate level of direction

Must be willing to adapt to shifting requirements or priorities

Qualifications:

For consideration in the Cardinal Health Early Career Development Program, you must meet a combination of the following requirements:

Currently pursuing a bachelor's degree in Chemical, Electrical, Industrial, Manufacturing, or Mechanical Engineering or a related field, preferred

Expected graduation of winter 2023 or spring 2024, preferred

Recommended GPA of 3.0 or above on a 4.0 scale (or country equivalent)

Knowledge of supply chain principles, Lean Six Sigma or other improvement techniques, preferred

Bilingual in English and Thai oral and written, required

Previous internship experience, preferred

Strong leadership, communication and analytical skills

Participation in extracurricular activities and/or community service

Must have unlimited work authorization in the Thailand with no requirement for future sponsorship

Candidates who are back-to-work, people with disabilities, without a college degree, and Veterans are encouraged to apply.

Cardinal Health supports an inclusive workplace that values diversity of thought, experience and background. We celebrate the power of our differences to create better solutions for our customers by ensuring employees can be their authentic selves each day. Cardinal Health is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, ancestry, age, physical or mental disability, sex, sexual orientation, gender identity/expression, pregnancy, veteran status, marital status, creed, status with regard to public assistance, genetic status or any other status protected by federal, state or local law.
