

QA Engineer

[Apply Now](#)

Company: Manatal Co LTD

Location: Bangkok

Category: computer-and-mathematical

is an HRTech software service (B2B SaaS) company headquartered in Bangkok, Thailand. Manatal is one of the fastest-growing start-ups in the region and is backed by Surge and Sequoia Capital. Manatal has a global presence and is trusted by thousands of businesses in over 135 countries and is recognized by as Best Recruiting Software of 2024.

Our goal is to transform the entire hiring process by making it simple, efficient, and enjoyable for recruiters, hiring managers, and candidates alike.

Our mission is to offer the best-in-class AI-powered technologies to empower small, medium, and large businesses in their staffing & recruitment transformation.

Overview

We are looking for a Quality Assurance Engineer to assess software quality through manual testing. You will work as part of a Scrum development team to ensure that our products work correctly. Our ideal candidate is one who is passionate about quality, is a good team player, and has excellent collaborative and communication skills.

Responsibilities

Plan and Execute test cases

Perform software tests, such as functional, performance, and UI/UX testing to confirm the accuracy and stability of the product

Cooperate with UI/UX team to make sure designs are implemented correctly

Perform cross-browser and cross-device testing

Identify and manage any defects identified throughout the sprint

Analyze and report results of tests

Assist in tracking and verifying bugs fixing before releasing

Perform post-release testing

Emphasize details and proactively raise the standards of the product quality

Collaborate with the team to brainstorm solutions and creatively solve problems

Requirements

Minimum 2+ years of experience in QA or software testing

Experience with an Agile/Scrum environment

Knowledge of software QA methodologies, tools, and processes

Experience in writing test cases

Experience in automated testing is a major plus

Excellent verbal and written communication skills in English

Excellent collaboration and communication skills

Excellent attention to detail with analytical and problem-solving skills

Ability to adapt quickly and work with multicultural teams

Big plus Experience creating/working on UI automation (e.g. Selenium, Robot framework, Cypress, etc.) and API automation frameworks (e.g. REST assured, Postman, etc.)

Big Plus Programming skills in any language (preferably python/javascript)

Working with Manatal

This role is based at our Bangkok office in the heart of the city center

As a team of diverse cultures and nationalities, English language proficiency is required

We enjoy collaborating in person and the team is working on-site

Why you'll enjoy working with Manatal

Well-funded start-up backed by Surge & Sequoia

Be part of one of the fastest-growing B2B SaaS start-ups in the region

You will be collaborating with talented individuals in the industry

Join a lively and highly international team

Indulge in a challenging and innovative working culture

Attractive medical healthcare plan

Personal development allowance

2 weeks of work from anywhere per year

Regular fun team-building activities

Company trip
