

Technical Food Quality Manager (Korat Based)

[Apply Now](#)

Company: PRTR

Location: Bangkok

Category: other-general

Our client is a global leader in food manufacturing. The company is now searching for a suitable candidate for the position of Technical Food Quality Manager.

Responsibilities:

Ensuring Q&FS standards and systems are developed, implemented, managed, and continuously improved to assure quality and food safety throughout the pipeline (plant, warehouse, and stores) protecting the Consumer and Brand Quality.

Leading QMP and corporate Q&FS standards implementation at the site and maintaining compliance through externally verified audit (LRQA). Upskill technical capability concerning standards for quality professionals and relevant stakeholders.

Handling governance of the Quality Management System and standards, verified through reviews, a robust internal auditing program, and a corrective/preventative action process.

Handling consumer complaint systems and governance, interacting with markets, investigation, and analysis for continuous improvement.

Handling Incident Owner (PRIMP) and leading RCA using problem-solving tools.

Working as business leaders to work with regional R&D system experts to design and deploy Q&FS, IT systems to support the global standard, traceability, requirement, and efficiency of the operation.

Managing a small team of qualified professionals and developing them.

Coordinating inputs and compiling Q&FS reviews (site, BU, and region)

Formulating the Continuous Improvement Plan, driven through root cause analysis of all customer and consumer-facing issues or non-compliances (eg complaints, warehouse audits, etc.)

Managing the Verification testing plan for raw materials, semi-finished products, and finished goods.

Being Food Safety Team Leader for the site.

Corporating Q&FS standards are deployed regionally in APAC with Q&FS Managers accountable for local implementation and compliance in partnership with Supply.

Coordinating a small team of quality and food safety professionals to deliver critical accountabilities for the site.

Handling assurance of these implemented standards must be reviewed and continuously improved to ensure the quality and food safety of the site's activities. In the event of a non-conformance resulting in product impact, the Q&FS Manager will be accountable for managing the incident using PRIMP and applying a corrective and/or preventative action process.

This role, in partnership with Supply, will enable a Q&FS culture that promotes conformance, continuous improvement, and customer satisfaction. Regional strategies for Q&FS will be cascaded centrally with the sites required to ensure KPIs are measured locally. The Q&FS Manager will advise the local leadership team on issues of quality improvements and food safety, especially verification activities for both raw materials and finished goods.

Qualifications

Degree in Food Science, Biotechnology, Chemistry, or any related.

Male or Female, Thai nationality.

Skill in a food safety program(HACCP), QMP, and GMP.

Good command of English.
